

## **Couples with the same last name**

In this family, there are three couples in which men and women have the same last name. Then they must be related to each other, because there is only one family with that surname.

Theodor Gesthuysen [10781] 1895-1961 married in 1946 with Agnes Gesthuysen [10782], 1915-2013. Six (male) / five (female) generations before they have the same ancestors: Nicolaus Gesthuysen [8869] 1687-1762 and Theodora Broeckmans [8874] 1691-1735.

Nikolaus Gesthuysen [10435], married Hildegard Gesthuysen [10433]. Five generations before they have the same ancestors [10028] x [10294]. Remarkable: no search was done for any family relations. It was just asked 'are you related to each other?'.

Cornelius Gesthijzen [10030] 1758-1824 married in 1786 with Sybilla Gesthuysen [10500], 1764-1836. The father of Cornelius and the father of Sybilla are brothers. Cornelius and Sybilla are cousins. Their marriage had dispensation be requested.
