

## **How far did we come, beginning of 2005.**

In our database are now 1248 persons with surname Gesthuysen, and all the variation on that name, with partners and descendants of female Gesthuysen's in total about 3500. About all those people we do know their relationship to other Gesthuysen's, but in several sources we did find many Gesthuysen's from who we can not yet make the correct link to 'our' family. We are in the middle of that puzzle. Most of the sub-families of the Gesthuysen family are complete now, to finish the job will still take considerable time. As far as we know now, there are Gesthuysen's living in Germany, the Netherlands, Belgium, Australia, New Zealand, Indonesia, UK, South Africa and Spain.
